

# Dermaplaning

## *Want a Facial Rejuvenation?*

Carolina Eye Associates is offering Dermaplaning. Dermaplaning is a treatment that exfoliates your skin while removing fine hairs on your face, giving your skin a fresh smoother appearance. There is no down time with this procedure and your make up can be applied immediately after.

Carolina Eye also offers facials. A facial can refresh the skin's appearance. A facial can also restore the skin's normal balance of oil and ph. Professional facials clean, condition, moisturize, rejuvenate and relax the face. Facials offered: Acne, Basic, Mens and European. Combine your dermaplaning with a facial and receive a special discount.
